EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

Comment on Submissions

1. This communication is responsive to submissions 8 August 2005.

Drawings

The drawings were received on 9 August 2005. These drawings are acceptable.

Allowable Subject Matter

2. Claims 23-36 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Regarding independent claim 25, the prior art does not disclose or fairly suggest a laser scanning microscope comprising: a semiconductor laser diode and a first optical fiber which leads the laser beam from the semiconductor laser diode to the scanning optical system and wherein the light source section of the apparatus and the scanning optical system are provided in one housing.

The examiner notes that while it is known in the art for a laser scanning microscope to comprise: a light source, a fiber and a scanning optical system wherein laser transitions are induced in the fiber with the aid of light from the light source and with laser light induced in the fiber (see for example – Engelhardt et al -- *US 2002/0030884 A1* -- Generally Fig. 1 and [0042]-[0044]), the prior art does not suggest of a laser scanning microscope wherein first optical fiber leads laser beam from the semiconductor laser diode to the scanning optical system and wherein, the light source section and scanning optical system are provided in one housing.

The remaining claims 24-36 are allowable based on their dependency.

Conclusion

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Faye Polyzos whose telephone number is 571-272-2447. The examiner can normally be reached on Monday thru Friday from 7:30 AM to 4:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dave Porta can be reached on 571-272-2444. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
